Bartok Joplin and Price

Not your usual wealth management team, but definitely rags to riches.

This duo, featuring violinist Kevin Crowder and flutist Laura Rowe, will perform several genres of music from the early 20th century.

The program features three composers, one who emigrated to the United States and became a naturalized citizen, and two African American composers from Arkansas. We will explore an eloquent sonorous melody, a few interesting Hungarian folk tunes, and conclude with a little light jazz.

Bring a sandwich and one to share.
